## PERSONAL PROJECTS

### Rojgar (01/2022 - 04/2022)

- It's about a freelance project for a 3rd year minor project I'm working on.

### Memories (09/2021 - 11/2021)

- It's a social networking website where we may share photos with status comments, likes, and other features for practicing web programming.

### Kurakani (05/2021 - 07/2021)

- It's about a talking application that uses nodejs socket functionality to allow us to chat with others in realtime.

### Music player app (01/2021 - 03/2021)

- I created a little music application to gain experience with Flutter.

### Moments (10/2022 - 03/2023)

- It's a social networking app where we may share photos with status comments, likes, real time chat with socket.io and other features.

### Attendance App (11/2022 - 12/2022)

- Attendance for employees with finger print to save their attendance data locally.

### Mero Padhai (08/2022 - Present)
